Customised Training *Employers' Guide*

The Department recognises the need to work with SME (Small to Medium Enterprises) to improve the skills of their current employees.

With this in mind we offer an Upskilling Solution through Customised Training with the opportunity to avail of subsidised training at levels 2 - 8 .

INSPIRING. TRANSFORMING. ENRICHING.

Customised Training is supported by the Department for Employment and Learning through a programme :

- Designed to enhance the skills base within a SME business
- If required, to create bespoke training where no existing product will meet the particular skill needs of a business
- Suitable for any employer (up to 250 employees) looking to Upskill or Reskill their current workforce, expand their current business or a new business considering locating in Northern Ireland.

What we do:

- Work with your company to identify suitable training opportunities for your staff
- Provide advice on any financial support available to cover the costs involved (up to 100% funding available)
- Look for training solutions to increase the skills levels of employees (level 2 - 8)
- Deliver practical and cost effective training solutions
