1.0 Change History

Changes to this SOP are documented in Appendix 1 of this document. When reading electronic copies of this document, [you can click here to view the change history](#).

2.0 Purpose

This document sets out the framework for managing Leave of Absence (LoA)/ Interruption of Studies (IoS) for students enrolled on Higher Education (HE) programmes in South Eastern Regional College. The general principles of this document have been agreed at sectoral level by the Colleges in Northern Ireland. The processes set out ensure that requests for LoA/ IoS are handled consistently, fairly and transparently, while safeguarding academic standards, student wellbeing and compliance with national quality and regulatory expectations.

3.0 Scope

This policy applies to:

- All students registered on Higher Education programmes delivered by the College, including franchised and validated provision.
- Full-time and part-time HE students (including Higher Level Apprentices).

This document **does not** apply to Further Education/ AppNI/ Traineeship (level 1-3) programmes, which are governed by separate arrangements.

Where the detailed regulations of an Awarding Body/ Organisation are more specific than this procedure, those external regulations take precedence. The College procedure should then be applied in a way that is consistent with those regulations.

4.0 Principles

The College recognises that students may experience circumstances that impact their ability to engage fully with their studies. LoA/ IoS may be granted where circumstances are exceptional, unavoidable or time-limited, and where temporary discontinuation is in the student's best interests.

This document is underpinned by the following:

- Protection of academic standards and award integrity, in alignment with the QAA UK Quality Code 2024 for Higher Education.
- The Northern Ireland Act 1998 (Section 75) and associated equality duties, including the requirement to consider the impact of policy decisions on individuals and groups
- Awarding Body/ Organisation requirements.
- A student centred and compassionate approach.
- Consistency and equity in decision making.
- Clear communication of implications for progression, assessment and funding.

5.0 Definition of Leave of Absence/ Interruption of Studies

Leave of Absences (LoA) or Interruption of Studies (IoS) are a formally approved temporary suspension of a student's registration, during which they do not engage in teaching, learning or assessment activities for an agreed period, such as a semester or academic year. An

366-06-2026

interruption is authorised on the expectation that the student will return to complete their programme within an agreed period of time.

An LoA/ IoS differs from:

- **Short-term absence**, which should be managed locally within programmes by applying the extenuating circumstances procedures. (See Higher Education Extenuating Circumstances SOP)
- **Withdrawal**, where there is no expectation of return and the student's registration is terminated with the relevant Awarding Body/ Organisation.

Students submitting requests under this procedure may be signposted to relevant wellbeing, disability, financial or academic support services where appropriate.

6.0 Relationship to Other Policies and Support Arrangements

This procedure applies to LOA/ IoS. Short-term, ongoing circumstances are normally managed through other College processes, including:

- Higher Education Extenuating Circumstances SOP
- Authorisation of Absences for Full-Time Students SOP
- Higher Education Programme SOP
- Safeguard, Care and Welfare SOP
- Learning Support SOP

7.0 Grounds for Leave of Absence/ Interruption of Studies

An LoA/ IoS may be approved where a student is temporarily unable to engage effectively with their programme. Grounds may include, but are not limited to:

- Physical or mental health difficulties.
- Significant personal or caring responsibilities.
- Bereavement or family crisis.
- Financial hardship that directly affects the ability to study.
- Participation in exceptional professional, sporting or civic opportunities that are judged to be educationally beneficial.
- Military service.

LoA/ IoS will not normally be approved to:

- Extend deadlines or assessment opportunities where extenuating circumstances procedures are more appropriate.
- Take extended holidays.
- Remedy poor academic performance in the absence of mitigating factors.

These grounds are not limited and other circumstances will be considered on an individual basis, for example to repeat without attendance, or 'retake the year in part or full'.

If an LoA/ IoS request is not approved, then the students will be signposted to the College for support services and other options such as extenuating circumstances, continuation of study or formal withdrawal as appropriate.

8.0 Evidence Requirements

Evidence provided must be:

- Relevant to the stated grounds for leave.
- Proportionate to the circumstances.
- Sufficient to allow an informed decision by the reviewer.

Suggested evidence is identified below, this list is not exhaustive and guidance for consideration will be given on a case-by case basis.

Physical or mental health difficulties- Medical note, letter or report from a GP or healthcare professional (This does **not** need to disclose detailed diagnoses, only confirmation of impact on study).

Significant personal or caring responsibilities- Official confirmation of caring responsibilities such as legal, social services, or support agency correspondence or brief supporting statement from a relevant professional.

Bereavement or family crisis- Reference to death notice. Medical note, letter or report from a GP/ healthcare professional/ counselling service/ legal representative/ professional representative. (This does **not** need to disclose details of the situation, only confirmation of impact on the study).

Financial hardship that directly affects the ability to study- Evidence of redundancy, change in employment circumstances, or financial hardship where relevant to the request.

Participation in exceptional professional, sporting or civic opportunities that are judged to be educationally beneficial- Letter from employer, official club, confirmation of civic duties from an official source.

Military Service- Letter confirming period of service from an official source.

Individual Circumstances- Any supporting evidence that could assist your application.

9.0 Duration of Leave

The following outlines the duration of leave consideration but each student application will be considered on an individual basis:

- LoA/ IoS will normally be approved for a maximum of one academic year.
- The total period of LoA/ IoS permitted for an individual student is the same for full-time and part-time continuous students.
- Extensions to the year will only be granted in extreme circumstances and where the Awarding Body/ Organisation permits.
- Shorter periods may be agreed where appropriate (where no prerequisites are impacted).
- Once the approved period has been reached, the student must return to programme, apply for an extension (where an Awarding Body/ Organisation permits) or be withdrawn.

10.0 Student Application Process

Students seeking LoA/ IoS:

1. Should discuss their circumstances with their Programme Co-ordinator/Director, and/or designated Student Support service who will liaise with the Programme
2. Co-ordinator/Director, in support of the student application.
2. Must submit a formal written request for Leave of Absence, supported by relevant evidence. (See Appendix 2)
3. Must be informed in writing of the outcome and any conditions attached to the approval.

Applications should be made as early as possible. Retrospective LoA/ IoS will be considered only where there is a clear and evidenced reason for delayed disclosure.

The College will ensure that students are signposted to relevant support services as part of this process.

11.0 Approval and Decision-Making

Consideration of LoA/ IoS requests should take a facilitative approach. Applications should be approved where the student has provided an explanation as to why they will be unable to engage with their studies and supported with appropriate evidence, for the relevant period, provided that the LoA/ IoS will be compatible with the student completing their studies subsequently and would not exceed the maximum allowable total period for LoA/ IoS.

Considerations will be made by Curriculum Management or a nominated representative and be subject to the following:

- Consideration of the student's academic progress and engagement.
- Requirements of the Awarding Body/ Organisation.
- Confirmation that re-engagement and re-integration can be supported effectively.

Decisions will be communicated formally to the student normally within 10 working days, including confirmation of:

- The approved period of LOA/ IoS.
- The conditions of return, including any requirements relating to curriculum changes.
- The implications for fees, funding, visas (where applicable) and access to college services.
- If not approved, the rationale for non-approval.

All LOA/ IoS requests and outcomes should be formally recorded by the Programme Co-ordinator/Director at the next Progress or Exam Board for the programme. The Programme Co-ordinator/Director should also notify Student Finance, the Awarding Organisation/ Body and Training Organisation/department (HLA only) where appropriate.

Communication templates can be found in Appendix 3- LoA/IoS Review Outcome Templates

12.0 Student Status During Leave

While on LoA/ IoS the following will be adhered to:

- Students will not be permitted to attend classes or submit assessments.
- Access to college facilities and services will be restricted.
- Students remain subject to the College's and Awarding Organisation/ Body regulations and conditions of enrolment.

13.0 Funding and Financial Implications

Students are advised that LoA/ IoS may have implications for:

- Student loans or funding arrangements.
- Fees and financial liability.

Students are responsible for seeking advice from relevant student funding bodies and/or independent financial advice where required. Guidance can be provided through the Student Finance Support team within the College.

14.0 Student Visa Holders

A LOA/ IoS may have an impact on student visa holders. Advice should be sought in advance of the application through the College's International Department (international@serc.ac.uk).

15.0 Changes to Programme

Students taking a LoA/ IoS should be aware that programmes may be subject to change while they are interrupted and that they may return to an altered programme structure. During return to study conversations, students will be notified of any relevant changes to programmes.

Students should be aware that if their programme is to be discontinued or substantially changed, it may not be possible to grant a LoA/ IoS.

16.0 Return to Study

Prior to returning from a LoA/ IoS students must confirm their intention to return by the agreed deadline; failure to do so will result in being withdrawn from the programme.

On return from LoA/IoS, the College will:

- Confirm the point of re-entry to the programme.
- Make reasonable efforts to support academic re-engagement.
- Inform students of any curriculum, assessment or regulatory changes.
- Signpost to any college services that might support the return to study.

The Programme Co-ordinator/Director should also notify Student Finance, the Awarding Organisation/ Body and Training Organisation/department (HLA only) where appropriate.

17.0 Equality, Diversity and Inclusion

The College will ensure that decisions in relation to LoA/ IoS are made in accordance with equality legislation and institutional equality screening processes, with appropriate monitoring for adverse impact.

18.0 Appeals

Students may appeal decisions relating to LoA/ IoS through the College's Academic Appeals Policy and Processes, where procedural irregularity has taken place, or new supporting evidence has been introduced. Information can be found at: [Appeals Process - SERC](#)

19.0 Monitoring and Enhancement

The College will monitor:

- the number and outcomes of applications
- timeliness of decision-making
- patterns and trends relating to equality and consistency
- the return of students from leave of absence

This information will be used to:

- identify areas for improvement
- inform staff development
- enhance student guidance and assessment practices
- support equality impact assessment and quality assurance processes

20.0 Privacy

All requests will be treated as confidential in accordance with the Privacy Notice detailed in the application/request form (see Appendix 2) and information will only be shared with individuals who have a legitimate reason for being informed.

21.0 Related Policies and Documents
