Task	As a Presenter	As a Producer
Join the Live event	Join the live event via the link provided <b>in advance of the start time</b> - Suggested <b>10 minutes</b>	
Control Audio / Control Webcam / Mute all users	<p>On the bar over your video stream, select the audio and video buttons to turn your inputs on and off.</p>  <p>View the participants pane and mute single users if needed. The Producer should be muting all for you.</p>	<p>At the bottom there is a section to control your camera/audio. To the right there is a button to mute all users. You will need to monitor this.</p> 
Prepare for screen share	<p>Select the desktop or content window you wish to share during your stream. This will appear in the content section for your Producer, allowing them to switch between your webcam and presentation.</p>  <p>Presenters should minimise the teams dialogue box at bottom right of the screen as it may be visible to attendees</p> 	<p>Once the Presenter has shared their webcam and content, the Producer will be able to queue content to the left and cast content live to the right.</p> <p>Select the content window from the bottom and it will add to the Queue window. Then click "send live."</p>  

Note: the event has not started yet. "Send live" is not technically "Live" until the event has begun.

Task	As a Presenter	As a Producer
<h2>Starting the Live event</h2>	<p>Let the Producer know when you are ready to go live.</p> <p>Once the event is made live <b>everything will be visible and audible by attendees</b>, have your PowerPoint on starting slide.</p> <p>You should request the Producer <b>start the event at least 5 minutes before the start time</b>. This will allow the stream time to launch and ensure you are present for any early viewers.</p> <p>Make a verbal announcement that the event will be starting shortly</p> <p>Make an announcement in the Q&amp;A section that the session will be starting shortly</p> <div data-bbox="560 869 1015 992"> <input type="text" value="Make an announcement"/> </div>	<p>Start the stream by clicking the Start button. It may take <b>a few minutes</b> to process and begin. <b>Please wait for this.</b></p> <p><b>STARTING THE STREAM CANNOT BE UNDONE OR PAUSED.</b> If you press end it will end the session entirely and you will not be able to start it again. <b>DO NOT DO THIS</b> until the event is completely over.</p> <div data-bbox="1075 566 1528 954"> <p>The screenshot shows a presentation slide with the text 'We're ready, are you?' and 'Focus on your future'. It also includes the SERC logo and a 'Start' button. A green arrow points from the 'Start' button in the presentation to a larger 'Start' button in the interface.</p> </div>
<h2>During the Live event</h2>	<p>Start presenting content at the appropriate time – navigating through your presentation.</p> <p>Moderate Q&amp;A if you wish. The Producer will be mainly monitoring this section while you present.</p> <p>Keep sharing your screen at end of the presentation – have an “Any Questions” slide with college contact information.</p> <p>You can now answer questions verbally that have been asked in the Q&amp;A section</p> <p>Thank yous and Goodbyes</p>	<p>Moderate the Q&amp;A – replying to personal questions privately, publishing relevant questions and then replying to them publicly. <b>If you reply before publishing the question, the answer will not come through with the question.</b></p> <div data-bbox="1075 1296 1528 1518"> <p>The screenshot shows the 'Live event Q&amp;A' section with a toggle switch set to 'Open'. It also displays counts for 'New (0)', 'Published (0)', and 'Dismissed (0)'.</p> </div> <p>Can read out Q&amp;A questions to Presenter. Remember to turn on mic when needed.</p> <p>Stop live event at the end of the event after the Presenter has finished all questions and said Thank yous and goodbyes.</p> <div data-bbox="1174 1800 1422 1910"> </div> <p>Close Q&amp;A section to new questions</p> <div data-bbox="1153 1973 1442 2078"> </div>
