

MICROSOFT WHITEBOARD

Meet the freeform digital canvas where ideas, content and people come together.

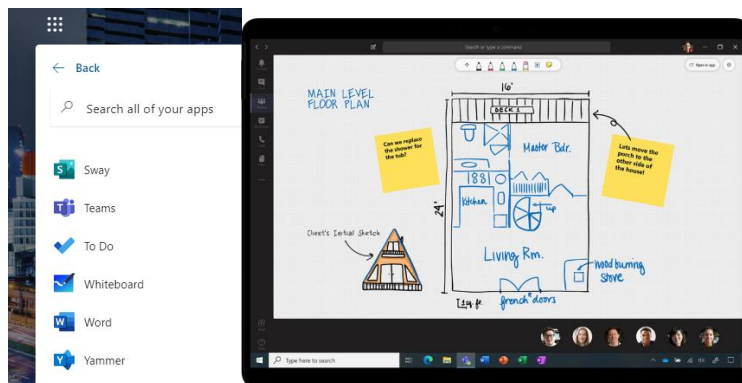

Give your ideas room to grow with Whiteboard. **Transform** your work into professional-looking **charts and shapes on an infinite canvas** with an interface designed for pen, touch and keyboard. **Collaborate** in real time, wherever you are. Bring your team together on the same virtual canvas, around the world and across devices. **Brainstorm** simultaneously in the Whiteboard app or from your browser window. **Save automatically, resume seamlessly.**

Your whiteboards stay **safe in the cloud** until you're ready to return to them, from the same or another device.

HOW CAN I FIND IT?

Share Whiteboard within your Teams meetings and classes by clicking on **"Share Content"** and selecting **"Whiteboard"**. You can then **"Open in App"** for more functions or keep it within your Teams.

On your waffle, select "Whiteboard" to open the app.

WHO CAN USE IT?

Anyone working in the College can use MS whiteboard for **free** – it is easily available through your SERC login.

MS Whiteboards are great for **sketching** ideas during team meetings, classes, group work, during live sessions or asynchronously.
